

Corona Terror Campaign Out of Control

<https://99endof.blogspot.com/2020/04/regarding-curious-business-of-global.html>

8th April 2020

Regarding the curious business of the global Corona terror campaign, we (in Britain) are being deliberately bombarded and panicked with fake numbers that are insanely exaggerated. For a start, everyone who dies WITH Coronavirus is being recorded as dying OF Coronavirus, although this is a farcical distortion of the truth. Below is a snip taken from the website of the UK's National Office of Statistics, where some very peculiar language indeed has begun appearing...

A "Covid death" is (now) a death where the disease was "*mentioned*" on the death certificate. "Deaths involving Covid 19" (my emphasis) is now an official phrase, according to the ONS.

Did you ever hear of "deaths involving a heart attack"? How about "deaths involving murder"?

This is a transparent ruse to allow deaths from any cause (cancer, pneumonia, heart failure) to be classed as a "Corona death" -so long as "a doctor" says so. To add insult to this assault on the meaning of "death", the doctors concerned are given a get-out-of-misdiagnosis free card in the final paragraph : -*a positive test is not required.*

8. Glossary

Coronavirus (COVID-19) deaths

Coronavirus (COVID-19) deaths are those deaths registered in England and Wales in the stated week where COVID-19 was mentioned on the death certificate as "deaths involving COVID-19". A doctor can certify the involvement of COVID-19 based on symptoms and clinical findings - a positive test result is not required.

This means a 99 year-old stroke victim with a history of heart disease and one functioning lung in intensive care due to pneumonia can be listed as a "Covid death" if the doctor signing the certificate reckons he (or the nurse who last saw the patient alive) can "detect" symptoms that resemble Coronavirus. (To rub this point home, Corona virus symptoms can be indistinguishable from -for example, -pneumonia, as stated by the ONS itself).

In other words, "Covid death" can [AND WILL] be recorded when
(a) there is zero hard evidence that the patient had the virus
(b) the virus played little or no part in the fatality.

We are told that in this "pandemic emergency" hospitals are now overcrowded, "like a war zone" etc.

In such an atmosphere, under extreme pressure, how often will an exhausted, overworked doctor decide to "mention" Covid on the death certificate, rather than perform an exhaustive post-death analysis?

Visit the ONS yourself and look at the data - very detailed statistics are right there. Well over 90% of all "Covid deaths" concern people who are very, very sick or very, very old to start with. But the newspapers obsess on a handful of younger, apparently healthy victims (whose deaths have yet to be analysed in detail) as if the entire population is poised to collapse and die at any moment - a blatant and disgraceful distortion of the truth.

On the back of media hysteria, panic and fake news, the UK has become a literal fascist state. Am I exaggerating? Really? I can -and will be arrested if I cross the street and meet three other friends in the house opposite. (While Chinese and Italian bankers fly into Heathrow unchallenged, untested). I will be driven out of the public park and fined if I sit down in the sunshine (while African benefit tourists cross the channel in a dinghy, are escorted to shore, given free accomodation, food and money. Could be carrying Zika virus, Dengue fever, leprosy, AIDS, let alone Coronavirus).

The so-called "Minister of Health" yesterday threatened the public that unless they get back into their cages he will "ban outdoor exercise altogether". Not fascist enough for you? ... they let you walk in the park in Nazi Germany. Coronavirus isn't the enemy. The government is.
